From (Name) Dr. K.T. Matthew, D.Hy., D.P.H.(Cantab.),

(Designation) Ag. Director of Public Health, Madras.

To The Secretary to the Government of Madras,

Local Self Government (Public Health) Department.

Sir,

I have the honour to state that on a reference made to the local authorities, it is reported that Typhoid fever is endemic in Mangalore, chiefly due to the water supply, which is from wells in compounds, in many cases being grossly contaminated.

I have the honour to be,
Sir,
Your most obedient servant,

Mangalore Water Supply

From the linked file it will be seen that the question of water supply to Mangalore the investigation of which was first sanctioned in 1918 has not yet emerged from the stage of investigation and that the Sanl Engr has ~~suggested~~ that before spending money on further investigation, the financing prospects should be ascertained in Consultation with the Mnl. Cl, on the basis of the rough estimates of Cost furnished in 1920.

~~2. There is no information~~

It is however proposed to call for revised estimates of Cost before addressing the Mnl. Cl. on the subject.

2. There is no information in this office as regards Cl (iii) of the Question: ~~Arrangements have been made for the Hospital~~
